Guest Lecture on Differential Equations Report 2023-2024

Name of the Department	Department of Mathematics with IQAC
Name of the Event Organized	Guest Lecture on Differential Equations
Date of Event Organized	16-03-2024
Name of the Coordinator of the Event	Mrs. K. Vimala , Mrs. S. Shanthi Priya & Mrs. Ritu Dave
Name of the Resource Person	Dr. K. Sri Ram Reddy, Associate Professor, Department of Mathematics, Osmania University
No. of Participants	75 (Students) , 03 (faculty)
Objective of the Event	The main objective of this Guest lecture is to introduce the students to the significance of differential equations in the context of modern mathematics, showcasing its relevance in solving real-world problems.
Outcome of the Event	The Guest Lecture was very useful to the students, as well as teachers, to build and strengthen their knowledge about differential equations and their applications. Students understood clearly about the behavior of the solutions in differential equations. They gained sound insight into the Role of Analysis in Differential Equations, from this Guest Lecture program.

REPORT

Computers are used to solve various problems in day-to-day life. Problem Solving is an essential skill that helps to solve problems in programming. There are specific steps to be carried out to solve problems in computer programming, and the success depends on how correctly and precisely we define a problem. This involves designing, identifying and implementing problems using certain steps to develop a computer.

Many companies look for candidates with excellent problem-solving skills. These skills help people manage the work and make candidates put more effort into the work, which results in finding solutions for complex problems in unexpected situations. These skills also help to identify quick solutions when they arise and are identified.

People with great problem-solving skills also possess more thinking and analytical skills, which makes them much more successful and confident in their career and able to work inany kind of environment.

Solving a question that is related to computers is more complicated than finding the solutions for other questions. It requires excellent knowledge and much thinking power. Problem solving in programming skills is much needed for a person and holds a major advantage. For every question, there are specific steps to be followed to get a perfect solution. By using those steps, it is possible to find a solution quickly.

TECH EXPO Report 2023-2024

Name of the Department	Department of Computer Science with IQAC
Name of the Event Organized	TECH EXPO 2K24 ("The Science of today is the technology of tomorrow";)
Date of Event Organized	26-02-2024
Name of the Coordinator of the Event	Mr. T. Santhosh & Mr. D. Pratap Rao
No. of Participants	60 (Students) , 02 (faculty)
No. of Teams Participated in Technical Presentations	18 (2 students as a Team)
No. of Mini Projects	6
Objective of the Event	The primary aim of participating in competitions is to promote innovation, creativity and technical skills among the participants. It provides the students with an opportunity to showcase their technical and presentation skills on a public platform.
Outcome of the Event	At these competitions, students have enthusiastically taken part in a range of events and presented their work on topics related to Computer Science, Data Science, modern technical methods. Students who excel in these competitions are awarded prizes and participation certificates as a token of appreciation.

Hyderabad.

REPORT

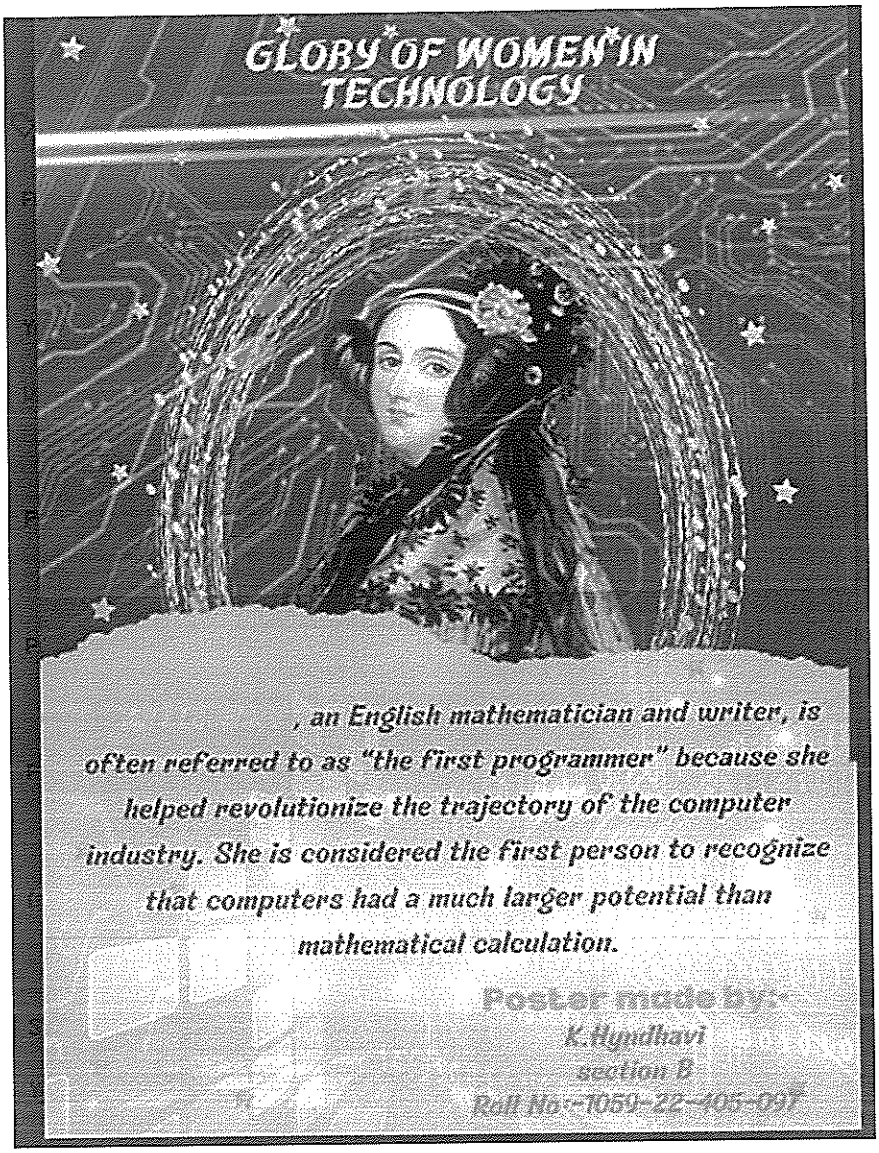
Ada Lovelace Day (ALD) is an international celebration of the achievements of women in science, technology, engineering and maths (STEM). It aims to increase the profile of women in STEM and, in doing so, create new role models who will encourage more girls into STEM careers and support women already working in STEM.

Founded in 2009 by Suw Charman-Anderson, it is now held every year on the second Tuesday of October. It features the flagship *Ada Lovelace Day Live!* 'science cabaret' in London, UK, at which women in STEM give short talks about their work or research in an informal, theatre-like setting.

Our mission at Ada Lovelace Day is to raise the profile of women in STEM, and we think our two anthologies about the inventors, pioneers, technologists, scientists, engineers and mathematicians, both modern and historic, do exactly that! Indeed, only one thing unites these stories, whether it is the ground-breaking use of scuba diving to study sharks, or the rigorous physical and psychological testing of Mercury astronaut hopefuls — all our protagonists are women.

In this eve we organized events like poster making and ppt presentation to our students.

Some of the photos of poster presentation by students.



GLORY OF WOMEN IN TECHNOLOGY
, an English mathematician and writer, is often referred to as "the first programmer" because she helped revolutionize the trajectory of the computer industry. She is considered the first person to recognize that computers had a much larger potential than mathematical calculation.

REPORT

To strengthen the mechanism to deal with cyber crimes in a comprehensive and coordinated manner.

An Awareness program is conducted on Cyber Security, it is the state or process of protecting and recovering computer systems, networks, devices, and programs from any type of cyber- attack. Cyber security measures are designed to combat threats against networked Systems and applications, whether those threats originate from inside or outside of an organization.

Need of Cyber Security- Our society is more technologically reliant than ever before and various aspects of our being are heavily driven by technology e.g. power, industries, law and order, safety etc. Cyber security thus gains paramount importance as it is imperative for protecting these data sources and IT infrastructure from being misused. This includes sensitive data, official data, personally identifiable information (PII), protected health information (PHI), personal information, intellectual property etc.

Always remember that, once the internet gets hold of personal or sensitive information, there has no control over it. Anything which can be put up that can be grabbed, copied and saved on someone else's computer and mirrored on other sites.
